For the 1961 Census it includes data relating to the Municipality of Darwin as constituted on 28th June, 1957, whereas for 1954 it includes data for the area at that time designated as "Proposed Greater Darwin". As the area of Proposed Greater Darwin was considerably larger than that of the Municipality, the 1954 and 1961 figures for "Urban" and "Rural" are not directly comparable. (c) Portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was received. (d) Not classified separately. (e) Includes "caretakers quarters" for 1954, but excludes them for 1961, when they were classified as private dwellings.

(a) The statistics shown are based on returns received from government authorities, contractors and owner-builders who undertake the erection of new buildings. Details obtained from government authorities and building contractors refer to all areas. Details for owner-builders cover only proclaimed health areas. Figures for houses exclude temporary dwellings, dwellings attached to other buildings, sheds, huts, etc. Each flat is counted as an individual living unit. Additions of \$10,000 and over to existing buildings are included with new buildings but alterations and minor additions are excluded. The values of new buildings exclude the value of land and represent the estimated value of buildings on completion. (b) The values shown represent the estimated value of work carried out on buildings during the year. For any building the sum of these values obtained during its construction equals the value of the building on completion. (c) Not available.

TABLE 76.—SALES TAX: GOODS SOLD AND TAX PAYABLE, NORTHERN TERRITORY, 1960-61 TO 1964-65

NOTE.—An indication of fluctuations in the value of wholesale trade is given by the returns made under the Sales Tax Acts. With certain specified exemptions, all goods sold by wholesale in Australia, including imports, are taxable. The returns do not relate to all wholesale trade, as vendors trading only in exempt goods are not required to furnish returns. They do not necessarily cover a constant proportion of all trade. The effects of legislation and administrative changes on the recorded values of taxable and exempt goods respectively are somewhat uncertain, but total recorded sales are affected in smaller degrees. Insufficient information is available to enable adjustments to be made to the crude figures on this account. The information shown below relates to assessments made in Northern Territory only.

In 1964 and 1965, 428 and 337 children respectively in the Northern Territory received correspondence education under the South Australian Correspondence School system. A "School of the Air" supplements normal correspondence instruction for certain children, some of whom live as much as 500 miles from Alice Springs, where the "School of the Air" is conducted.
